Samsung LCD & Plasma Monitor

# LFD Welcome Board

STN-520WE

Supporting your vision with style

Professional presentation has never looked better. The streamlined Samsung STN-520WE supports a wide range of screen sizes and formats. Easy to install and easy to use, it makes a high-impact statement with style.

## Height Adjustment function

The display can be optimized for any environment by raising or lowering the height of the screen. This enables the screen to be positioned with precision to create a more effective display.

## Landscape and Portrait format

The versatility of horizontal and vertical screen positioning enables you to design a display that fully fits your needs. By using the pivot function, the screen can be easily rotated between Landscape and Portrait formats.

## Select your screen size

Supporting several screen sizes, the Samsung STN-520WE gives a greater choice of display options. Support for 40", 46", and 52" LCD and 42" and 50" Plasma screens enables you to change the screen should you need.

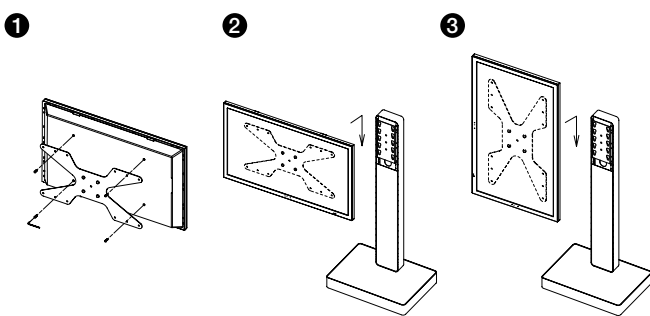

## Displayed with style

The exquisitely designed Samsung STN-520WE stands out from the crowd. With its luxurious lines and elegant black body, it effortlessly draws eyes to the screen and provides a premier platform for premium presentation.

## Simple installation

Easy to assemble and easy to install, the Samsung STN-520WE is ready for use in minutes. Simply follows the assembly instructions and experience the difference that high-impact display can make.

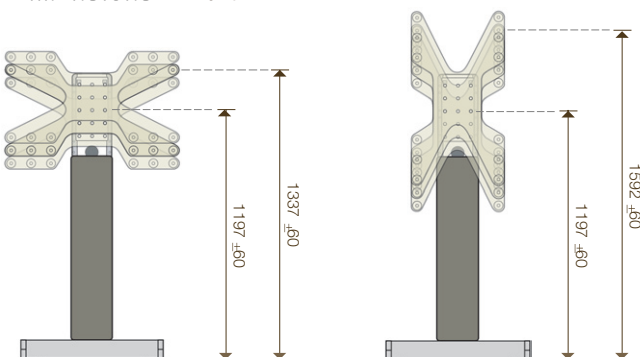

## Easy to assemble

1. Firmly fix the bracket to the stand with 4 bolts. (Using a 4mm L-shaped wrench, tighten the bolt by turning it clock-wise.)
2. Latch the Monitor set onto the stand by carefully inserting the bolts attached on the cover-rear into the stand's bracket holes.
3. Firmly fix the Monitor set to the bracket using 4 bolts. (Using a 5mm L-shaped wrench, tighten the bolt by turning it clock-wise.)
